Celebrate with One In Tech at our Virtual Launch Party!

We invite all ISACA chapters, members, and the public to join our OIT launch party webinar.
Thank you for Joining Us Today!

We are excited to introduce you to our Mission and Programs, as well as sharing our Vision of creating partnerships with YOU! We know that individuals and companies around the world are the KEY to successfully building diversity and equity within the tech space.

In short, together, as ONE, we can create a better future IN TECH.
Who IS One In Tech?

One In Tech is a 501c3 Non-Profit created by the IT membership organization ISACA as its Philanthropic Arm. It is separate from ISACA.

One In Tech Invests in FUTURE of the Digital World to ensure equity and diversity for all populations. Through our educational and inclusive programs, we build pathways for all people to benefit from and succeed in technology.
Our strategy is to provide **responsive, relevant** programs designed to support **under-resourced, under-represented** populations.

One In Tech addresses the **inequity** in IT that is a result of systemic injustices around the world.
Technology knows no gender, no color, no age. It makes no assumptions, holds no biases and has no bounds. When used for good, technology can level the most uneven playing fields and better the world.

We believe that together, the tech community can create a digital world of which we are proud to be a part, a place where all people are safe, secure and most definitely equal.

Our Mission
To build a healthy digital world that is safe, secure and accessible for all.

Our Vision
Our Programs

**Young Leaders In Tech**
Preparing the next generation to be healthy digital citizens
Young Leaders In Tech will provide under-resourced children with the knowledge and skills to help them avoid online risks, maximize online opportunities, and exercise their full rights in the digital world. Initiatives within this program include:
- CyberSleuths
- Relevant-IT

**SheLeadsTech**
Building avenues to achieve a workforce free of gender-bias
SheLeadsTech empowers women, a highly underrepresented percentage in the tech workforce, to not only enter into tech careers, but to stay in the field, serving in leadership roles and achieving their highest potential.
- Ambassadors
- Mentors
- Educational Events
- Networking Opportunities

**WeLeadTech**
Creating pathways for a racially and culturally diverse workforce
WeLeadTech empowers groups who, due to racial, cultural bias, or exclusion, are under-served in the tech industry, barred from opportunities to build leadership skills, find and be mentors, gain career guidance, and achieve certifications, so to build equity in technology fields.
- Corporate Programs
- Educational Events
Global Collaborative Approach

VOLUNTEER RELATIONSHIPS
Carefully curated volunteer opportunities utilizing:

• ISACA members and Chapters
• Corporate volunteers
• Individuals,
• Professional associations members

PARTNERSHIPS and COLLABORATIONS
Collaborative and integrated

ISACA Chapters
Primary and Secondary Schools
Non-Profit Organizations
Corporations, Businesses, Associations
Grassroots Community Organizations
Our programs and initiatives are provided in multiple globally accessible formats, delivered directly and through our collaborations and partnerships with corporations, ISACA Chapters, non-profits, schools, and other organizations and institutes.

ON-LINE
Working closely with ISACA, One In Tech will develop and utilize online platforms as well as webinars, blogs, network forums and toolkits.

IN PERSON
One in Tech will create presentations, courses, school curriculum, networking events, after-school programs and work with ISACA’s conferences and events.
Opportunities for Engagement

- Join online program events and invite your contacts to join
- Host or cohost with OIT SheLeadsTech and/or WeLeadTech events
- Collaborate via your company (bring WeLeadTech to your staff) or school (Young Leaders In Tech programs)
- Share our programming with others (invite OIT to present, forward our info, tweet/LinkedIn shares)
- Volunteer (Ambassador, mentor, speaker)
- Fundraise and sponsor programs to support our mission (individually, your company, 3rd party event. etc.)
- Donate via ISACA membership renewal process
- ISACA Chapter Challenge
- Make a suggestion or propose an idea!
Our Impact

One In Tech Foundation will continually gather, analyze and disseminate metrics and stories that will illustrate the impact of our programs throughout the world.

Our vision includes partners, collaborators, supporters, and ultimately, believers who join the mission for a healthy digital world that is safe, secure, and accessible for all.
Bridging the Digital Divide through
❖ Education
❖ Access
❖ Inclusion
